

LOGAN GRULLON

Cybersecurity AAS Student | Founder, Grullon Labs | Networking • Linux • Python • Security

Glen Allen, VA | loganluisg@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Cybersecurity AAS student with hands-on experience building and securing Linux virtual environments, analyzing network traffic, and developing Python networking tools. Built an isolated Kali/Ubuntu home lab, hardened SSH, configured UFW and Fail2ban, analyzed authentication logs, and documented projects on GitHub. Seeking an entry-level cybersecurity, SOC, network support, or IT internship.

TECHNICAL SKILLS

Security: Linux hardening, SSH, UFW, Fail2ban, Windows permissions, hashing/encryption, log analysis | **Networking:** TCP/IP, DNS, DHCP, HTTP/HTTPS, FTP, Nmap/Zenmap, Wireshark, LAN troubleshooting | **Tools:** Kali Linux, Ubuntu Server, Windows 11, VMware Workstation, Git/GitHub, VS Code, Docker | **Scripting:** Python, PowerShell, Bash

SELECTED CYBERSECURITY PROJECTS

Linux Server Hardening & SSH Attack Detection Lab

2026

- Built an isolated VMware Kali/Ubuntu lab; configured Host-only networking plus NAT for updates.
- Implemented ED25519 SSH keys, disabled password/root SSH login, configured UFW, analyzed journalctl authentication events, and used Fail2ban to block repeated failures.

Network Recon Toolkit - Python

2026

- Developed a Python CLI scanner with hostname resolution, quick/common/custom scan modes, open-port summaries, and TXT/JSON reports.
- Validated the tool against SSH/HTTP services in the home lab and published documentation and screenshots on GitHub.

Cybersecurity Home Lab - Grullon Labs

2026-Present

- Maintain a multi-VM environment for Linux administration, reconnaissance, web-service testing, packet analysis, monitoring, and controlled attack/defense practice.

EDUCATION & HANDS-ON TRAINING

J. Sargeant Reynolds Community College - AAS, Cybersecurity

2026-Present

Relevant coursework/labs: ITN 101, ITN 260; Cengage labs in Wireshark, log analysis, Windows permissions, file hashing/encryption, password security, and cryptography.

Penn Foster High School - High School Diploma

2022

EXPERIENCE

Instacart - Shopper / Independent Contractor

2025-Present

- Manage time-sensitive customer orders, substitutions, communication, issue resolution, and app troubleshooting while maintaining accuracy and service quality.

Grullon Labs - Founder / Cybersecurity Project Portfolio

2026-Present

- Build, test, document, and publish hands-on cybersecurity projects focused on networking, Linux security, Python automation, and defensive monitoring.
